**Icon workshop December 5 - 10, 2011**

Each participant will create an icon in the traditional technique of Romanian reversed glass iconography using egg-tempera and gold leaf. The icon is painted directly on the back of the glass, in reverse, starting with the details. The students will learn to draw the outlines on the glass in ink, paint in egg-tempera on the glass, and apply the gold leaf.

Students will learn basic knowledge of each step during the workshop and will complete an icon to take home. All the materials required for completing the icons will be provided with the tuition, including hand-crafted wooden frames for each piece.

The tradition of this technique began in Romania in the 17th century and is the least common and least understood form of iconography in existence today. This form of iconography was mostly practiced in the eastern block countries before the rise of communism and was almost lost because of it.

Class will be from 9:00 am until 5:00 pm each day (Dec.5 - Dec.9) and 9:00 am until 12:00 pm on Dec. 10. The tuition for the workshop is \$450.00. Enrollment for this class is limited to 10 students.
